**Additional questions:**

	<b>ANSWER</b>
What were your expectation for this workshop?	To participate in interesting and useful excercises that can be easily applied to everyday work.
Do you have a need for similar seminars? What is the subject of your interest?	Yes, I would like to get more practice and training on Public speaking skills, as well as the Media speaking.
Did the workshop help you improve your skills?	Overall, yes. However, these trainings should be taken more often because people tend to forget useful „tips and tricks“
Do you have any suggestions?	It would be even more useful if this workshop was a bit longer (half a day, or even one day long) so that all the learned skills could be practiced more and adopted better.
